KNOW

WHERE TO GO

It's important to understand your options when seeking medical care.

Non-emergency care for a condition that is not life threatening is generally provided by your physician. Even after-hours care is generally coordinated by your physician who can instruct you on how to receive medical care outside of normal business hours, on weekends and on holidays. If you are in severe pain or your condition is life threatening, you can receive emergency care by calling 911 or visiting an emergency room.

PRIMARY CARE PHYSICIAN

Go to your Primary Care Physician to help manage total care and to seek treatment for non-life threatening conditions.

Expected out-of-pocket cost:

$

Conditions treated may include:

- Annual checkup
- Fever
- Diabetes management
- High blood pressure

TELEHEALTH

Contact your Telehealth provider for non-life threatening conditions that can be treated over the phone or via video consultation.

Expected out-of-pocket cost:

$

Conditions treated may include:

- Allergies
- Sinus infection
- Bronchitis
- Skin rashes

URGENT CARE

Go to an Urgent Care clinic after hours or when your Primary Care Physician is otherwise unavailable.

Expected out-of-pocket cost:

$$-$$$

Conditions treated may include:

- Bladder infection
- Ear infection
- Cold/Flu symptoms
- Minor burns

EMERGENCY ROOM

Go to the ER immediately for severe and life-threatening conditions. ERs include hospital-based emergency rooms and freestanding ER facilities.*

Expected out-of-pocket cost:

$$$$

Conditions treated may include:

- Chest pains
- Head injury
- Severe breathing problems
- Stroke symptoms

Blue Cross and Blue Shield of Alabama encourages you to consult with your physician regarding the appropriate care for your particular condition and not put cost as the first or sole reason for choosing a provider.

Examples provided are for illustrative purposes only. Some conditions that are severe enough may require you to go directly to the emergency room.

This information is for educational purposes only and is not a substitute for personal care from a licensed physician. Please consult your physician for diagnosis and treatment options. Benefits are subject to terms, limitations and conditions of your plan. Please refer to your benefit booklet for a complete listing of your plan benefits.

** The out-of-pocket cost is dependent on how the facility or provider submits the claim to Blue Cross.*

THE VALUE OF

IN-NETWORK SERVICES

Using in-network providers helps you save money.

In-network providers are contracted to accept your health plan, which means they agree to a fixed amount for their services, known as the allowed amount.

Consider the effect network status can have on a $200 service:

	IN-NETWORK Plan Pays **80%** of Allowed Amount (COINSURANCE)	OUT-OF-NETWORK Plan Pays **60%** of Allowed Amount (COINSURANCE)	OUT-OF-NETWORK Plan Pays Nothing 5
Full Billed Amount	$200	$200	$200
Allowed Amount	$110	$110	-
1 Network Discount	$90	-	-
Plan Pays Coinsurance	$88 2	$66 3	-
You Pay Coinsurance	$22	$44	-
Balance You Could be Billed by Provider	$0	$90 4	$200

For illustrative purposes only. Assumes deductible is met. Does not account for any applicable copays you may owe at the time of service.

1. The amount the provider has agreed to waive from the full billed amount to remain in-network. There is no discount with out-of-network providers, so you could be billed the full amount.
2. The Plan pays 80% of the allowed amount, and you pay 20%.
3. The Plan pays 60% of the allowed amount, and you pay 40%.
4. The amount the provider is not contractually bound to waive from the full billed amount due to being out-of-network.
5. Out-of-network providers are not required to accept your health plan. The Plan pays $0 of the Allowed Amount, and you pay $200.

Find in-network providers

We keep your costs low by making in-network, high quality healthcare easy to find.

- Log in to your *my*BlueCross account on **AlabamaBlue.com** or the Alabama Blue mobile app, and use the Find a Doctor tool. Only your Plan's in-network providers display when you are logged in.
- If you have questions about finding in-network providers, please call the member Customer Service number on the back of your Blue Cross ID card.

Before you seek non-emergency healthcare,

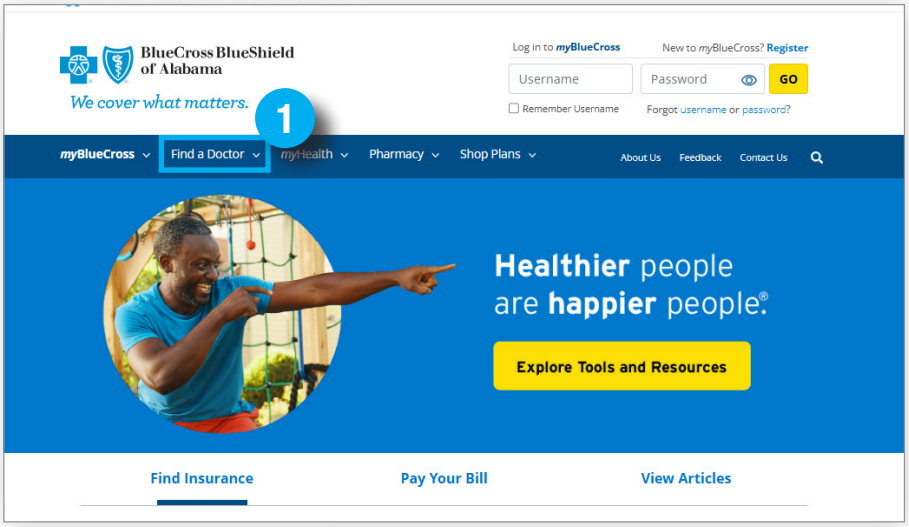
it's a good idea to call the provider to make sure your health plan is accepted. Always choose an in-network provider to pay the lowest out-of-pocket cost for your healthcare.

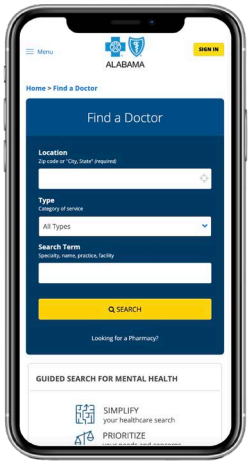
FIND THE CARE YOU NEED

EASY. QUICK. CONVENIENT.

Do your homework before ever leaving the house and use our ***Find a Doctor*** tool on **AlabamaBlue.com**. Find a Doctor makes it easy to find the right in-network healthcare providers in your area.

When you choose providers from your network, you pay significantly less out of pocket for the same level of care.

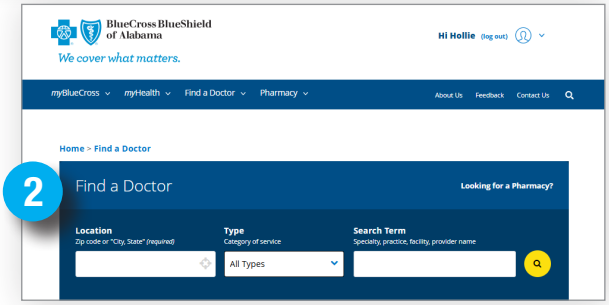


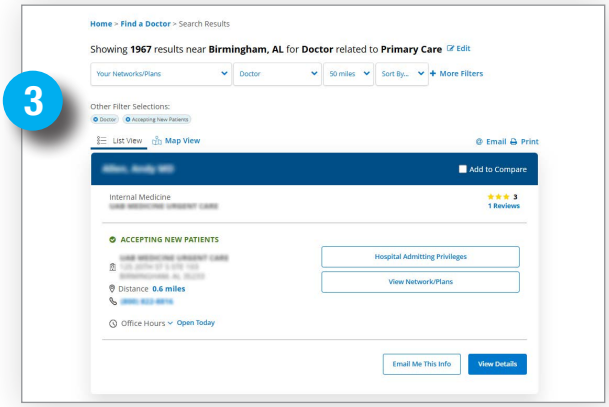


Find a Doctor is compatible with all devices!

ALABAMA | Available on the App Store | ANDROID APP ON Google play

Start using ***Find a Doctor*** on your mobile browser by visiting **AlabamaBlue.com/SearchProviders**, or within the ***Alabama Blue*** mobile app.





To access *Find a Doctor:*

1. Log in or register for *my*BlueCross at **AlabamaBlue.com** and click *Find a Doctor.*

2. Enter a city and state combination, zip code or select the navigation icon to use your current location. Select a search item from the "Type" drop down and enter a keyword to refine your results.

3. Narrow your search with filters.

Depending on search criteria, your results may include:

- Address and directions
- Phone number
- Office hours
- Network participation
- Doctor specialties
- Hospital admitting privileges for doctors
- Quality information and designations
- Hospital Choice Network level for Alabama hospitals

There is no charge from Blue Cross and Blue Shield of Alabama to download, but rates from your wireless provider may apply.

ESTIMATE YOUR

TREATMENT COSTS

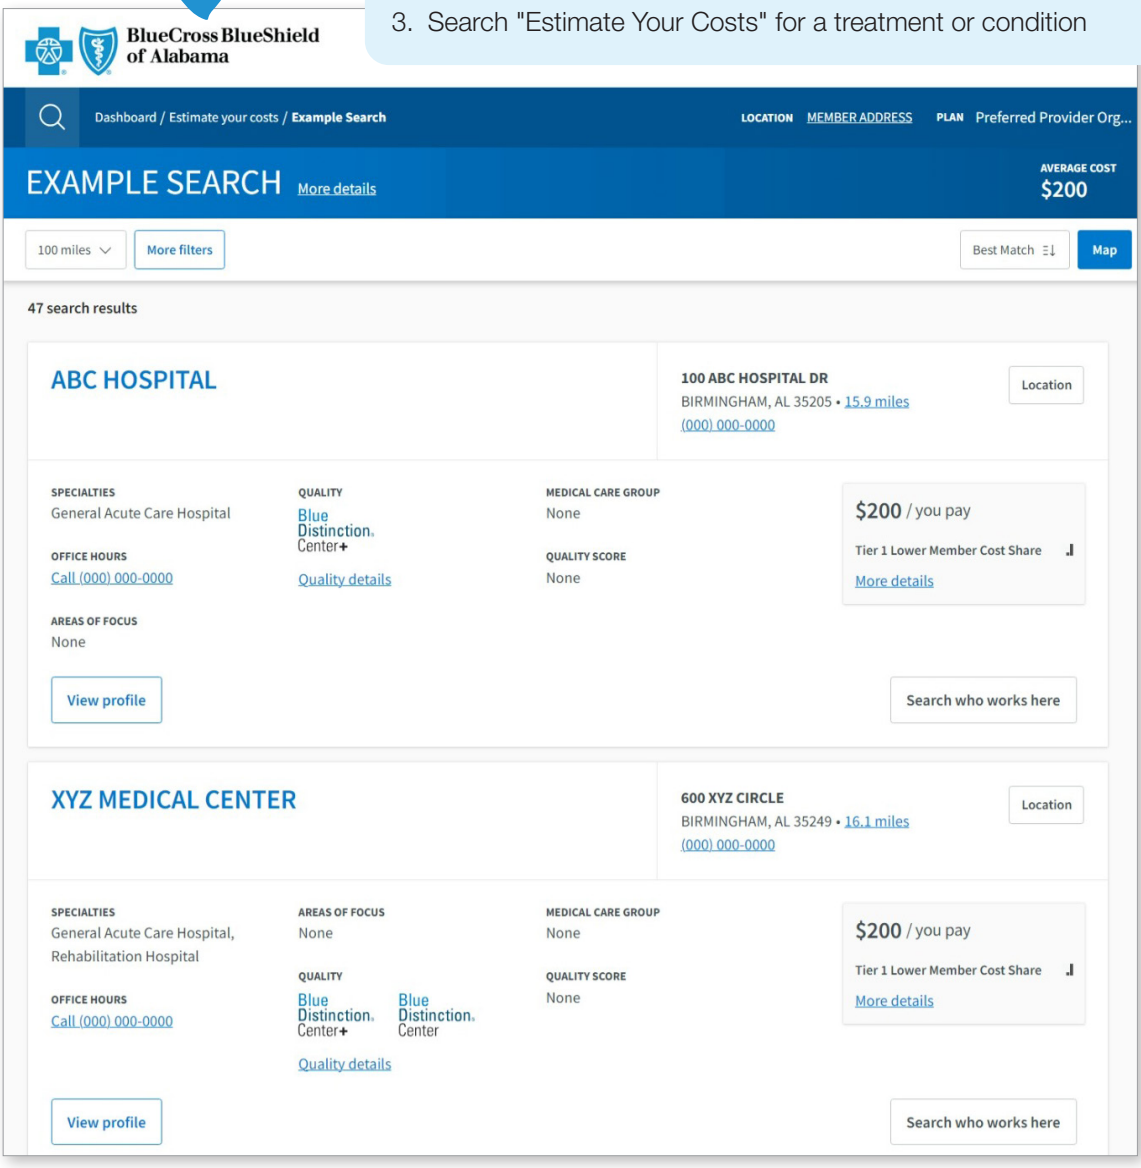
Save time and money with the online Treatment Cost Estimator. You can look up more than 1,600 in-patient and out-patient procedures to make more informed decisions about where to go.

The Treatment Cost Estimator makes it easy to:

- Estimate the costs of treatment prior to having the procedure
- Compare search results by cost, location, provider or facility name
- Understand your out-of-pocket cost and anticipate future expenses for a particular treatment
- Know the coinsurance or copay amount you might pay
- Search negotiated rates for services as required by the Transparency in Coverage Rule

To access the Treatment Cost Estimator:

1. Log in to your *my*BlueCross account online or via the Alabama Blue mobile app
2. Click "Treatment Cost Estimator" under the *Saving Money* section on the right of the screen
3. Search "Estimate Your Costs" for a treatment or condition



Sample search results are for an ACL repair. This example displays benefits based off an average price of the facility charges listed and a plan benefit subject to a $200 deductible.

Please Note: The amount of the cost estimate that you are responsible for paying is based on your benefit plan, including any deductible and coinsurance requirements.

HOW TO READ YOUR

CLAIM STATEMENTS

A Claim Statement is generated every time you or a covered family member uses your health insurance plan. It provides an at-a-glance record of each occurrence, detailing how much was charged, how much your plan paid and how much you may owe.

Case Management

This telephone-based program is designed to help you navigate the healthcare system if you have a complex, catastrophic or specialty condition. Case management programs are staffed by experienced registered nurses and include, but are not limited to, the following:

- **Transition of care:** educate and support following discharge to help reduce the risk of preventable ER visits and hospital readmissions
- **Catastrophic care:** coordinate care for members who have experienced a traumatic injury or condition requiring extended hospital stay or rehabilitation
- **Specialty care:** provides education, guidance and support for members and family by clinicians experienced in the fields of high risk OB, neonatal, transplant, oncology and pediatrics

There is no cost, and participation is voluntary and confidential. Call 1-800-821-7231 or email MemberManagement@bcbsal.org.

At-Risk Coaching

This curriculum-based program focuses on obesity, hypertension and prediabetes. Health coaches can help you prevent or reverse the risks for developing a chronic condition by making healthy lifestyle changes.

They work with you to develop a customized action plan to:

- Set personal health goals
- Overcome challenges
- Develop a nutrition and exercise regimen
- Understand medications

There is no cost, and participation is voluntary and confidential. Call 1-855-699-6168 or email HMHealthCoach@bcbsal.org.

Chronic Case Management

This telephone-based program incorporates a holistic, personalized approach to managing your healthcare. Our program includes these and other specialized conditions, as it continues to evolve:

- Asthma
- Chronic Obstructive Pulmonary Disease
- Congestive Heart Failure
- Coronary Artery Disease
- Diabetes (Types 1 and 2)
- Musculoskeletal pain
- Chronic Kidney Disease (CKD)

Clinicians will provide a health assessment for you and develop a patient profile. There is no cost, and participation is voluntary and confidential. Call 1-888-841-5741 or email MemberManagement@bcbsal.org.

Maternity Management

The goal of the Baby Yourself® program is to ensure expectant mothers and their babies receive the best possible healthcare during pregnancy. You'll receive telephone or e-mail support from an experienced registered nurse throughout your pregnancy.

The Baby Yourself mobile app provides additional information, trackers and easy access to your nurse through one-button dialing. Once your baby arrives, the Lactation Program provides encouragement, support and information designed to improve the well-being of infants and their families.

There is no cost, and participation is voluntary and confidential. Call 1-800-222-4379, visit **AlabamaBlue.com/BabyYourself** or download the Baby Yourself mobile app.

Members who enroll in the first trimester (16 weeks and 6 days) and complete the program are eligible for a **$25 reward**.

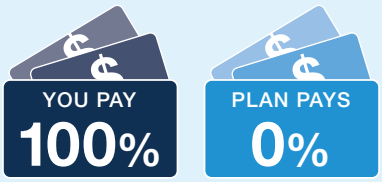
UNDERSTAND

DEDUCTIBLES & COINSURANCE

It's important to understand how your health plan works before you receive care so you know how much you will pay for it. Below is an example of how a typical health plan works.

DEDUCTIBLE

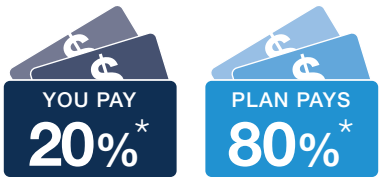
Amount you pay before your plan starts to help cover expenses; in most cases, only care received in your provider network counts toward your deductible.



FOR A $500 DEDUCTIBLE	
YOU PAY	PLAN PAYS
$500	$0

COINSURANCE and/or COPAY

Coinsurance is a percentage of the amount charged for services that you start paying after meeting your plan's deductible; Copay is the fixed amount you pay for a covered service.



FOR A $200 SERVICE	
YOU PAY	PLAN PAYS
$40	$160

OUT-OF-POCKET MAXIMUM

The most you could pay in a year for covered services. After you meet the maximum amount, the plan will usually pay 100% of the allowed amount.

FOR A $200 SERVICE	
YOU PAY	PLAN PAYS
$0	$200

*Coinsurance example only For illustrative purposes only. Does not account for any applicable copays you may owe at the time of care service. Preventive services may be covered by the health plan at 100% with no deductible or copay. Review your particular benefits to determine coverage levels.

Keep in mind deductibles, coinsurance, copays and out-of-pocket maximums will vary based on the health plan and whether services are provided in-network.

COORDINATE BENEFITS WITH

MORE THAN ONE HEALTH PLAN

It's important to understand how your benefits are coordinated when you have multiple health plans. You should also be aware of your rights during special enrollment periods.

Coordination of Benefits (COB)

This affects your benefits when you or a covered family member also has another health plan. COB ensures the right plan processes your claims first and prevents overpayments. The goal is to keep costs down for everyone.

Please be sure we have current information about any other health plans you may have. This will help us process your claims correctly and promptly.

You may update your COB status online.
Just have your Blue Cross member ID card ready.

1. Log in to your *my*BlueCross account at AlabamaBlue.com
2. Click the *my*BlueCross tab in the blue banner, and then click "Other Insurance Coverage"
3. Complete and submit the Other Insurance Coverage form

Familiarizing yourself with these common health plan terms can help you better understand your benefits.

Allowed Amount
The maximum amount on which payment is based for covered healthcare services. If an out-of-network provider charges more than the Allowed Amount, you may have to pay the difference (known as balance billing). You cannot be balance billed by in-network providers.

Coinsurance
A type of coverage where you and the health plan split the amount paid for a covered service, generally after you have paid a set deductible. For example, you pay 20% and the health plan pays 80%.

Copay
A fixed amount you pay for covered healthcare services, usually when you receive the service. The amount can vary by the type of service.

Deductible
The amount you owe for covered healthcare services before your health plan begins to pay.

Network
The facilities, providers and suppliers your health plan or its vendors have contracted with to provide healthcare services. In-network coinsurance and copay amounts are typically less than out-of-network.

Out-of-Pocket Maximum
The most you pay during a policy period (usually a year) before your health plan begins to pay 100% of the Allowed Amount. This limit never includes your Premium, Balance Billing charges or healthcare services not covered by your health plan. Some health plans don't count all of your coinsurance, copays, deductibles, out-of-network payments or other expenses toward this limit.

Precertification or Preauthorization
The procedures used by your health plan or employer group to determine that certain healthcare services, treatment plans, durable medical equipment or prescription drugs are medically necessary before you receive the services, except for emergency services. It is not a guarantee your health plan will cover the cost.

Premium
The amount that must be paid for your health plan. You and/or your employer usually pay it monthly.

Primary Care Physician
A physician who directly provides or coordinates a range of healthcare services for a patient.

Provider
A physician, healthcare professional or healthcare facility licensed, certified or accredited as required by state law.

Specialist
A physician who focuses on a specific area of medicine or patient group to diagnose, manage, prevent or treat certain types of symptoms and conditions. A non-physician specialist is a provider who has more training in a specific area of healthcare.

Since 1936, we've helped our members live their best life possible by providing unmatched access to quality healthcare. We work hard to deliver the best value for your healthcare dollar with:

- the broadest choice of in-network doctors and hospitals
- the most comprehensive coverage at some of the lowest premiums in the country
- provider strategies to improve care quality and cost low, industry-leading operating costs
